

Recommendation Letter

To whom it may concern,

I am pleased to recommend Aryav Deep, who completed the FlyRank AI Internship Program from July 1, 2026 to August 31, 2026 in the role of Machine Learning Engineering Intern.

During the program, Aryav completed 17 practical assignments applying curriculum in Data wrangling, Embeddings and clustering, Intent and opportunity modeling, and Insight to action.

The program record documents at least 233 hours across practical assignments, accepted capstone work, program meetings, learning resources, and verified Anthropic Academy courses.

As the culminating project, Aryav completed "Google Search Ranking & Discoverability Capstone," which was reviewed and accepted by the lead track mentor.

Participation also included 7 attended program meetings, 35 completed learning resources, and 12 verified Anthropic Academy courses.

Based on this verified completion record, I recommend Aryav for opportunities aligned with machine learning engineering and applied AI roles.

The approved internship specialization was Machine Learning; the independently qualified completed track was Machine Learning.

About this recommendation	
Recommendation for	Aryav Deep
Program role	Machine Learning Engineering Intern
Program completed	FlyRank AI Internship, July 2026
Primary specialization	Machine Learning
Completed track(s)	Machine Learning
Participation period	July 1, 2026 to August 31, 2026
Program supervisor	Arijana Ibrović - Director of Internship Program

Sincerely,

A handwritten signature in black ink, appearing to read 'Alen Malkoc', is written over a blue circular corporate seal. The seal contains the text 'FLYRANK AI', 'CORPORATE', 'SEAL', '2024', and 'WYOMING'.

Alen Malkoc
